

Norcool – Drawer Fridge With Kitchen Panels

The Drawer Fridge sets new standards in style and functionality with its ergonomic design and clean profile. Go for an integrated model that matches your existing kitchen furniture for a seamless look. It has two large drawers and an ingenious 'secret' third storage drawer. The drawers are fully accessible top and bottom with an easy glide self-closing mechanism with full shock absorption.

Product benefits:

- 2-5 °C core temperature
- 2 large drawers and 1 smaller internal drawer
- Completely maintenance-free and with automatic defrosting
- Integrated Drawer Fridge (to be integrated using your kitchen furniture)
- Frees up workspace as it is built in under the worktop
- Ideal solution for wheelchair users
